

# IT'S WORSE THAN WE THOUGHT! Fauci and Top US Doctors Caught! They CONSPIRED to Disqualify Hydroxychloroquine as COVID Treatment – MILLIONS DEAD AS A RESULT

The Gateway Pundit has [reported extensively](#) this past year on the effects of hydroxychloroquine in treating the COVID-19 virus.

We knew that the Dr. Tony Fauci and the medical elites conspired to ban the use of this very successful drug.

We reported earlier on how Dr. Fauci [used bogus studies](#) to disqualify HCQ in treating coronavirus.

Now this... There is proof that Dr. Fauci and top US medical experts all conspired using obviously false

information to disqualify hydroxychloroquine and MILLIONS DIED as a result of their action.

As previously reported-

It's been over a year since the WHO declared the coronavirus a pandemic after originally downplaying the threat. It is no secret that both the disease and the response to combat it following this SARS-CoV-2 outbreak in late 2019 have turned our world upside-down. Mandates, lockdowns, and guidelines seem to change every time Dr. Fauci opens his mouth. All of these unprecedented rules were put into place, we were told, to slow down the spread of a disease that today is linked to the death of over half a million Americans and 3.7 million global citizens in the last year.

You would think that researchers would have concentrated on prophylactic and therapeutic solutions of this disease especially since this disease is a death sentence for the elderly, the obese, those with preexisting conditions. The coronavirus doctors have forced children to avoid school, mask up, and get vaccinated. One would think that after all this time there would be a consensus in the hospitals, in the nursing homes, and in other treatment centers on how to treat a Covid positive patient or resident. This is not the case.

There still is no agreed-upon treatment plan for elderly patients who catch coronavirus to assist in their *recovery*.

The CDC and Dr. Fauci ignored treatment plans for coronavirus patients unless the person was under severe distress.

Cardiologist and Professor of Medicine Peter McCullough testified in Texas earlier this year. Dr. McCullough sees COVID patients and says 85% of COVID patients given multi-drug treatment plan recover from the disease with complete immunity. McCullough added, "The pandemic could have been over by now, he says, if those who tested positive for covid had been

immediately treated before they fell ill enough to be hospitalized. He also says that thousands could have been, and still could be saved if the treatment protocol he and other physicians use were not suppressed.”

Dr. Fauci and the CDC and WHO suppressed this effective treatment plan and others.

And hundreds of thousands of innocents died.

And now this...

The [c19hcq.com](http://c19hcq.com) website tracks all of the international studies on hydroxychloroquine and its effects on the coronavirus.

There is now a new study and the results are SHOCKING!  
– [HCQ for COVID-19: real-time meta analysis of 245 studies](#)

HCQ is not effective when used very late with high dosages over a long period (RECOVERY/SOLIDARITY), effectiveness improves with earlier usage and improved dosing. But early treatment consistently shows positive effects. That’s the science.

TGP contributor Larry Johnson [touched on this](#) on Wednesday night and took excerpts from [Headline USA](#)’s reports on Dr. Fauci’s emails regarding hydroxychloroquine.

*But the e-mails also showed that Fauci was more in the loop than he let on concerning some of the Trump administration’s proposed treatment solutions.*

*He notoriously second-guessed then-President Donald Trump during a press conference statement about the benefits of using [hydroxychloroquine](#).*

*Fauci refuted President Trump in a White House press conference on March 25:*

*Although Fauci seemed taken aback and insisted that the “anecdotal” claims had yet to be conclusively studied, a month earlier he had been looped into [an email to Pence](#) on Feb. 29 in which a pair of Oklahoma physicians extensively discussed their research on it.*

*Fauci also responded to a [Feb. 24 inquiry](#) that noted that China had been reporting about its clinical studies with the drug.*

*“Is there any indication/data to substantiate this claim from China (attached publication) that chloroquine/hydroxychloroquine can decrease COVID-19 infections and lung disease?” wrote Maryland pharmacologist Philip Gatti.*

*Fauci’s passive reply echoed what he would later convey on the national stage.*

*“There are no data in this brief report and so I have no way of evaluating their claim,” he wrote dismissively.*

*“There are a lot of these types of claims going around,” he continued. “I would love to see their data.”*

Then in May Dr. Fauci told CNN that hydroxychloroquine was actually “dangerous” and ineffective.

Dr. Fauci told CNN hydroxychloroquine was actually dangerous when used as a prophylactic against coronavirus. Hydroxychloroquine had been used safely for 65 years in millions of patients. And so the message was crafted that the drug is safe for its other uses, [but dangerous when used for Covid-19](#).

This statement made headlines throughout the fake new media and it was a complete lie.

After Fauci’s statements on hydroxychloroquine, the tech giants began censoring any mention of the drug. The media mocked President Trump and anyone who suggested the drug was safe and effective. Doctors treating coronavirus patients were suspended from their social media accounts.

**And hundreds of thousands of people died.**

It was all based on a lie perpetrated by Dr. Anthony Fauci.

\* \* \* \* \*

Now there is more information that it was not just Fauci but all of the top US medical leaders who were in on the hydroxychloroquine lie.

Dr. Meryl Nass, MD, broke this story in [The Defender](#). According to Dr. Nass, the top health officials were all in on the conspiracy against hydroxychloroquine.

*Fauci runs the NIAID, Collins is the NIH director (nominally Fauci's boss) and Farrar is director of the [Wellcome Trust](#). Farrar also signed the [Lancet](#) letter. And he is [chair](#) of the WHO's R&D Blueprint Scientific Advisory Group, which put him in the driver's seat of the WHO's [Solidarity trial](#), in which 1,000 unwitting subjects were overdosed with hydroxychloroquine in order to sink the use of that drug for COVID.*

*Farrar had worked in Vietnam, where there was lots of malaria, and he had also been [involved with SARS-1](#) there. He additionally was central in setting up the [UK Recovery trial](#), where 1,600 subjects were overdosed with hydroxychloroquine.*

*Even if Farrar didn't have some idea of the proper dose of chloroquine drugs from his experience in Vietnam, he, Fauci and Collins would have learned about such overdoses after Brazil told the world about how they mistakenly overdosed patients in a trial of chloroquine for COVID. The revelation was made in an [article](#) published in the [JAMA](#) in mid-April 2020. Thirty-nine percent of the subjects in Brazil who were given high doses of chloroquine died, average age 50.*

*Yet the Solidarity and Recovery hydroxychloroquine trials continued into June, stopping only after their extreme doses were exposed.*

*Fauci made sure to control the treatment guidelines for COVID that came out of the NIAID, advising against both chloroquine drugs and ivermectin. Fauci's NIAID also [cancelled](#) the first large-scale trial of hydroxychloroquine treatment in early disease, after only 20 of the expected 2,000 subjects were enrolled.*

*What does all this mean?*

- 1. There was a conspiracy between the five authors of the [Nature](#) paper and the heads of the NIH, NIAID and Wellcome Trust to cover up the lab origin of COVID.*

2. *There was a conspiracy involving Daszac, Fauci and others to push the natural origin theory. (See other emails in the [recent drop](#).)*
3. *There was a conspiracy involving Daszac to write the Lancet letter and hide its provenance, to push the natural origin theory and paint any other ideas as conspiracy theory. Collin's blog post is another piece of this story.*
4. *Farrar was intimately involved in both large hydroxychloroquine overdose trials, in which about 500 subjects total died.*
5. *Farrar, Fauci and Collins withheld research funds that could have supported quality trials of the use of chloroquine drugs and ivermectin and other repurposed drugs that might have turned around the pandemic.*
6. *Are the four individuals named here – Fauci, Daszak, Collins and Farrar – intimately involved in the creation of the pandemic, as well as the prolongation and improper treatments used during the pandemic?*

Read the rest [here](#).

This is an absolutely huge development!

The same people responsible for the virus were responsible for eliminating valid treatment alternatives for the same virus.

We are now looking at Mass Murder on an unfathomable scale!
